

BRANDFX EVERLAST™ SERVICE BODIES

Advanced Composite Designs

Trusted by 5 Out of the Top 6 U.S. Service Fleets

BRANDFX
EVERLAST TRUCK BODIES™

The worldwide leader in lightweight composite work truck bodies.

DURABILITY, FUEL EFFICIENCY & GOOD LOOKS

Advanced fiberglass composites are improving truck bodies, and BrandFX is leading the way.

BrandFX lightweight EverLast™ service bodies offer a number of advantages when compared to conventional steel bodies – and fiberglass-based, composite construction is the difference maker. This proprietary construction results in service bodies that combine high-strength, durability, and a quality appearance with substantially improved fuel efficiency. All of which earn BrandFX the distinction of being the Life Cycle Value Leader™ of the industry.

Weighing up to 50% less than steel

These bodies' lighter weight provides for significantly better fuel economy, while reducing wear on tires, brakes, and suspension members. The light weight of EverLast service bodies also increases the available payload of a truck. In fact, in some cases, EverLast bodies will actually allow an operator to downsize vehicles. BrandFX Everlast bodies are designed to meet the same strength and durability requirements of industrial steel bodies. In an attempt to match the lightweight of composites, competitors' aluminum bodies sacrifice strength and resiliency to achieve a lighter weight body.

Handling the same loads as steel with far more benefits

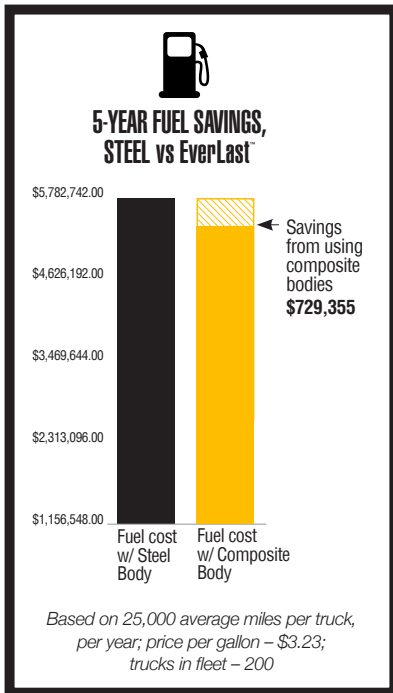

BrandFX EverLast service bodies are designed and manufactured to handle the same loads as steel bodies, and offer a number of other benefits beyond fuel economy and load-carrying capacity. These bodies feature high-strength construction, making them ideal for a variety of demanding service applications. In addition, these service bodies are extremely durable, easily repaired, and corrosion free, adding to their service life. Combining these many features, premium EverLast service bodies provide life cycle value unmatched by any conventional metal design.

BRANDFX, THE PERFECT MATCH FOR AERIAL AND CRANE APPLICATIONS.

- High strength construction.
- Trusted by leading North American utility, telecom, and service companies.
- Compatible with all leading manufacturers' service cranes and aeriels.

LIGHTWEIGHT. DURABLE. STRONG.

Longer life, smarter purchase

BrandFX EverLast™ proprietary service bodies have been proven to deliver more than 20 years of reliable service, while also maintaining their quality finish and appearance. That's why, for over 30 years, many companies, including 5 out of the top 6 U.S. service fleets, have counted on these bodies. Why? Because for today's fleets, BrandFX EverLast bodies are the smarter investment.

Made in America, the quality way

Because BrandFX believes in American-made quality, all EverLast service bodies are manufactured in the U.S. BrandFX utilizes almost one million square feet of manufacturing space. These facilities are strategically located across the U.S., positioning BrandFX to meet the demands of various markets and their unique application needs. To ensure the consistent quality of its full line of truck bodies, BrandFX employs the most advanced manufacturing and quality control processes.

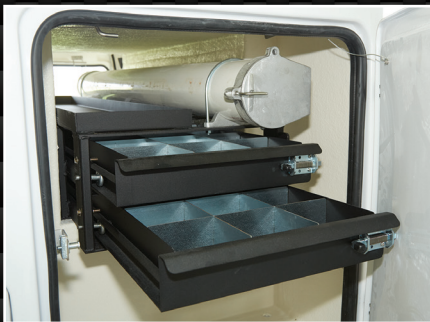

Wide range of makes, models, and sizes

To meet the full range of market demand, BrandFX EverLast™ bodies are available in: 40", 56", 60", and 84" cab-to-axle sizes. Many of our popular designs are in stock and immediately available for ordering.

To learn more about how BrandFX composite service bodies can help improve the overall performance and service life of your fleet, visit the website at www.brandfxbody.com, call (866) 431-1131, or email BrandFX at info@brandfxbody.com.

FOR TODAY'S FLEETS, BRANDFX IS THE SMARTER INVESTMENT.

Standard options for all service bodies include, but are not limited to, roll deck, roll top with double rear doors, aluminum pull out drawers, transverse and shelf organizers. These service bodies can also accommodate ladder racks, cranes and aerials.

BrandFX is the worldwide leader in lightweight composite Work Truck bodies – providing service bodies, line bodies, inserts, tonneau covers, and toppers to many of the world’s largest utility and service fleets. BrandFX EverLast composite bodies are proven to offer the highest life cycle value, delivering 20-plus years of effective service while maintaining their quality finish and appearance. Because BrandFX believes in American-made quality, the company manufactures all of its truck bodies in the U.S.

THE LIFE CYCLE VALUE LEADER IS BRANDFX
